

PEM® R'ANGLE® fasteners provide strong right angle attachment points in thin sheets.

# RA™

## RIGHT ANGLE FASTENERS

# RIGHT ANGLE FASTENERS

PEM® R'ANGLE® fasteners provide strong right angle attachment points in sheet metal or PC Boards. **RAA™** and **RAS™** fasteners for metal are simply pressed into a rectangular mounting hole of the proper size. **SMTRA™** fasteners are installed onto PC Boards using standard surface mount techniques. The holding power of the fastener is unaffected by the repeated tightening and loosening of the screw.

PEM® R'ANGLE® fasteners are cost-effective replacements for:

- Bent edge tabs
- Bent center tabs
- Bent flanges
- Angle brackets
- Tack welds
- Loose hardware

PEM® R'ANGLE® fasteners provide many advantages over bent tabs and flanges, including:

- More predictable designs
- Tighter design control
- Reduction of loose hardware
- Unmarred panel surfaces
- Material savings
- Improved shielding characteristics
- Fewer assembly steps

<p><b>RAS™</b> fasteners for sheet metal is a threaded right angle fastener that accepts standard unified or metric screws - <b>PAGE 3</b></p> 	<p><b>SMTRA™</b> right angle threaded fasteners are installed on to PC Boards using standard surface mount techniques.  (2) HRB - Hardness Rockwell "B" Scale. HB - Hardness Brinell.  
 (3) Optimal solderability life noted on packaging.

## INSTALLATION

### RAS™ and RAA™ Fasteners

1. Prepare a properly sized rectangular mounting hole in the sheet. Do not perform any secondary operations such as deburring.
2. Place the fastener through the mounting hole (preferably the punch side) and into the anvil as shown in the drawing to the right.
3. With the installation punch and anvil surfaces parallel, apply a squeezing force until the bottom of the fastener becomes flush with the sheet.

\* NOTE: The punch must be large enough to cover the entire base of the fastener to ensure proper installation.

Installation tooling is available from PennEngineering.

### PEMSERTER® Installation Tooling

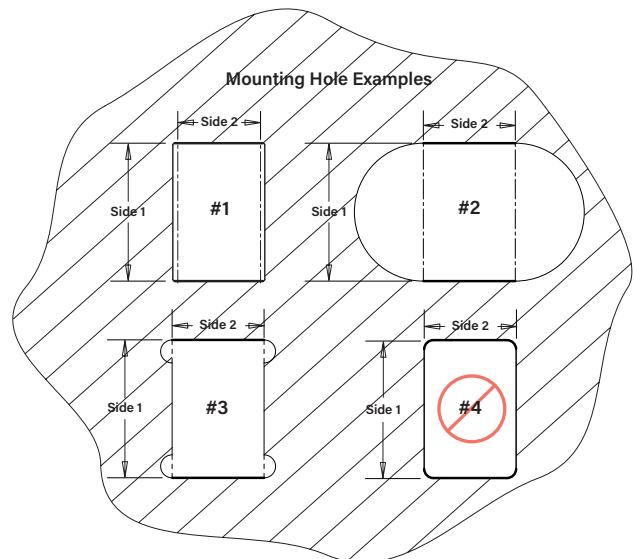

UNIFIED	Screw or Thread Size Code	Anvil Dimensions (in.)				Anvil Part Number	Punch Part Number
		A ±.001	B ±.001	C ±.005	D Min.		
	4 / 440	.257	.313	.100	.425	8002711	8003076
	6 / 632	.307	.376	.100	.500	8002712	
	8 / 832	.357	.407	.100	.575	8003642	

METRIC	Screw or Thread Size Code	Anvil Dimensions (mm)				Anvil Part Number	Punch Part Number
		A ±0.03	B ±0.03	C ±0.1	D Min.		
	M3	6.53	8.02	2.54	10.8	8002713	8003076
	M4	9.07	10.03	2.54	12.7	8002714	

### MOUNTING HOLE EXAMPLES

The mounting hole is defined by two dimensions. The two thick lines shown must be straight for the entire length defined by "Side 2" and must be separated by the distance shown as "Side 1" (Side 1 and Side 2 are the two dimensions given for the mounting hole on pages 3 and 4). The illustration shows three examples (#1, #2, and #3) of how it can be achieved. Example #4 in the lower right side will not work.

#### INSTALLATION NOTES

- For best results we recommend using a HAEGER® or PEMSERTER® machine for installation of PEM® self-clinching fasteners. Please check our website for more information.
- Visit the Animation Library on our website to view the installation process [for this product](#).

# RIGHT ANGLE FASTENERS

## SMTRA™ SURFACE MOUNT FASTENERS

Flat top for vacuum pick up.

Solder paste applied to pad on PCB.

Solder fastener in place using standard surface mount techniques.

Undercut to accept solder fillet and permit flush to edge installation.

(1) Published installation forces are for general reference. Actual set-up and confirmation of complete installation should be made by observing proper seating of fastener as described in the installation steps. Other performance values reported are averages when all proper installation parameters and procedures are followed. Variations in mounting hole size, sheet material, and installation procedure may affect performance. Performance testing this product in your application is recommended. We will be happy to provide technical assistance and/or samples for this purpose.

(2) Pushout test is conducted without side panel attached to R'ANGLE® fastener.

(3) 1" / 25.4mm from screw centerline.
